

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

P R E F A C E .

THIS Catalogue has been prepared to meet demands arising, in part, from large additions made to the Library since the publication of the last, and in part from the need of a new and more systematic arrangement of the books; which, before, were located too much in the order of the successive cumulations, but have now been distributed according to a convenient classification.

In the execution of the work, especial regard has been had to perspicuity, and neatness of appearance. Improvements have been made on the preceding Catalogue, by the insertion of nearly every book under two or more titles. The Classified Index, also, has been revised and enlarged; and a new index, referring to the contents of volumes of Speeches, Essays, and Miscellanies, has been appended.

The old Catalogues show the number of books in the Library, at successive periods, to have been as follows: in 1781, 163 volumes; in 1808, 723 volumes; in 1818, 937 volumes; in 1825, 1730 volumes; in 1832, 3562 volumes; in 1835, 4565 volumes; in 1838, 6078 volumes; in 1846, 9140 volumes. The present number is **11,652.**

The work of superintending the publication of this Catalogue was most sadly interrupted by the untimely death of its much esteemed author—a man to whom the Society has been indebted in past times for services many and important, rendered both in his official connection with it, and in his character as an ever faithful and active member. This is no place for eulogy or commemoration. Yet it is no more than justice to the memory of ALBERT HEARD, to say that this, the last of the many arduous tasks assigned by the Society to his able hands, has been executed with a success which speaks of his self-sacrificing zeal for the faithful discharge of the duties he had undertaken.

LIBRARY REGULATIONS,

JOINTLY ADOPTED BY THE

LINONIAN, THE BROTHERS, AND CALLIOPEAN SOCIETIES.

I. DURING term time the Library shall be opened for the delivery of books daily, from 1½ to 2 o'clock P. M., unless the books have been called in by previous notice.

II. Encyclopedias and unbound periodicals may be retained from the Library one week only; all other books two weeks, except when recalled.

III. Books must be charged, in all cases, before they are taken from the Library.

IV. Four volumes only may stand charged to the same name at the same time, and no person may draw books upon the name of any other member without presenting to the Librarian a request in writing from that member, naming the individual book or books; the said member becoming responsible for any fines assessed upon, or loss of such books.

V. Books may be renewed once only before returning to the shelves, and for this purpose must be brought to the Library.

VI. During the time of drawing books no persons shall be allowed to pass behind the railing, except the Librarian and his Assistants.

VII. Books belonging to the Library shall not be taken out of the city of New Haven.

VIII. The Acting Members of the other College Societies may draw books under the same regulations as acting members of this Society.

IX. **Graduated Members** of this and the other College Societies may draw books under the same regulations as acting members.

X. **Honorary Members** of this and the other College Societies may draw books under the same regulations as acting members, by the payment of one dollar a term in advance, to the Librarian of the Society of which they are members.

PENALTIES.

I. Persons retaining books from the Library for a longer time than above specified, shall be fined one cent per volume for every day of such retention.

II. When the books have been recalled by notice, the above fine shall be increased to ten cents per volume.

III. The fine for taking books from the Library uncharged, shall be twenty-five cents per volume.

IV. If books are seriously injured or lost, the person to whom they are charged shall be held responsible to replace them, or pay the cost of replacing them, to the Librarian.

V. Persons neglecting or refusing to pay their fines, shall not be permitted to draw books until such fines have been paid; and it shall be the duty of the Librarian, in case any person is excluded from the use of this Library, to notify the Librarians of the other Societies, who will also exclude him from the use of their Libraries until they receive notice from the Librarian of this Society that the cause of exclusion no longer exists.

YALE COLLEGE, January 26, 1848.
